Staff roles and responsibilities

School Principal

The principal holds primary responsibility for the safety and wellbeing of all students and staff.

The principal is responsible for ensuring:

- the school's behaviour procedures are updated annually as a review process, consulting with the Departments school behaviour procedures.
- all staff are familiar with and use the current behaviour procedures in line with departmental requirements.
- all procedures are current and reviewed as part of a continuous cycle of selfassessment.

Deputy/Assista nt Principal

The Deputy/Assistant Principal supports the principal in their role and is responsible for leading and supporting staff with the implementation of the school's behaviour procedures. This could include:

- Manage all tier 2 and 3 behaviours, consulting with parent/caregivers on matters of concern.
- reflect with students on their behaviour of concern and work on strategies moving forward.
- Refer students to LST when behaviours become a concern to wellbeing and safety of others.

Overview	
All Staff	Staff support student behaviour within their classroom and whole school by promoting positive behaviour and managing behaviours of concern. This includes: • Following all PBL and Berry St processes in line with school procedures and expectations. • Manage low level tier 1 behaviours in the classroom and on the playground. • Refer students to supervisor when behaviours become concerning.

Promoting and reinforcing positive student behaviour and school-wide expectations

Bonnyrigg Public School has the following school-wide rules and expectations:

To be Safe, Respectful and Engaged in all areas of the school. What this looks like is;

- Hands and feet to yourself
- Use furniture and equipment appropriately
- Hand up and wait to speak
- Follow instructions
- Always try your best
- Right place, right time

Bonnyrigg Public School uses the following strategies and systems to explicitly teach, recognise and reinforce positive student behaviour and behavioural expectations:

Positive Behaviour for Learning

A whole school approach to explicitly teaching and modeling positive behaviour. Expectations and desired behaviours are taught during explicit lessons, with a fortnightly focus put forward to students to work towards an identified target. Students are rewarded in accordance with the positive behaviour model and students work towards a major school award through exhibiting positive behaviour and engagement in their learning.

Berry Street Education Model

A trauma informed practice that creates a safe space for students to succeed and thrive. Built off consistent, predictable routines, relationships are established between the teacher and the students to ensure they are all ready to learn at all stages of the school day. Student wellbeing is supported through regular check ins and activities, to support their learning such as, brain breaks, morning circle and mindfulness.

Behaviour Code for Students

The Behaviour Code for Students can be found at https://education.nsw.gov.au/policy-library/policies/pd-2006-0316/pd-2006-0316-01. High expectations for student behaviour are established and maintained through effective role modelling, explicit teaching and planned responses.

Reflection Room Procedures

At times, it may be necessary to apply fair, reasonable and proportionate disciplinary strategies, such as detention and/or reflection, to address inappropriate student behaviour. The student has been directed to a dedicated space at lunch time to participate in a restorative conversation, reflect on their behaviour and how they could make more positive choices.

During reflection room, students undertake a restorative conversation with a trained Assistant Prinicpal, using the choice theory framework. During this conversation, students will develop a plan with the AP that will be kept on file and revisited with the student during check ins. Check in meeting occurrences are determined by AP determined by severity of behaviours.

Questions for self-evaluation

Coaching Total Behaviour

- → What has happened?
- → What did you do?
- → When you did that, what were you thinking?
- → And when you were thinking that, what was the feeling/emotion?
- → Can you tell me where you felt that in your body?
- → Is there something you could do or think that would help you to be more in control?
